## International Company Breaking Into the US Market?

This is a huge step, and we are familiar with the unique distribution needs of international business owners.

[Learn More](#)

## Don't Know Who to Trust with Your Merchandise?

It takes a big leap of faith to trust a third party with all of your stock, and you want to be sure that you're making the right decision, especially when it comes to managing it all from afar.

Ship My Orders is the only fulfillment company that you should hire as your shipping partner. Take it from somebody that has been in business since 1999 and gone through more shipping facilities than I even want to remember...from smaller, family-run operations to the largest in the country. If I could give them more than 5 Stars, I would, without hesitation.

Lorenzo A.

On boarding process was very easy and required very little commitment. Since then we have been consistently impressed with ShipMyOrder. Great and I mean GREAT customer service. Process is very smooth and we have had no problems. They have allowed us to focus on other parts of the business.

Kevin F.

# Order Fulfillment Services Nationwide

Give your business the order fulfillment infrastructure and expertise you need to quickly reach your customers.

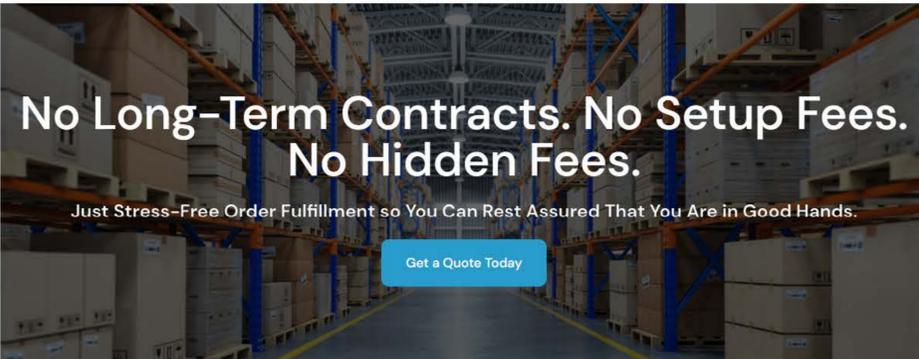

One of the biggest challenges eCommerce businesses face today is delivering their goods in a timely and cost-effective manner to their customers. This can be especially challenging if your business is growing rapidly or if you see a spike in demand. You can gain or lose business depending on how well you handle these challenges. However, it can be a costly investment for you to internally develop or expand these logistical capabilities on your own. A third-party logistics (3PL) provider can give your business the order fulfillment infrastructure and expertise you need to quickly reach your customers while allowing you to maintain a streamlined operation focused on your core strengths.

## Streamline Shipping with Order Fulfillment Management by Our West Coast Fulfillment Center

Our fulfillment services handle all of the order logistics for your business – from the time an order is placed on your website to the point that it is received by your customer. **We take the responsibility of order fulfillment and distribution so that you can concentrate on growing your business.** No extended contracts or leases on warehouse space that can hurt your business over time if you commit to too much or too little. No more training employees and managing staff. We make it easy for you to sell online.

Our process is simple. You ship your inventory to our warehouses to be stored. We integrate with the shopping cart that you utilize on your website to process orders, and when an order is placed, it is routed to our location. The order is analyzed by our staff, and the appropriate items are pulled from your inventory. The item is then packed in the way that you specify and shipped to the customer using the service that they choose.

Additional benefits of our services include the fact that we utilize strategically located warehouses on the west coast. This allows us to pull your customer orders from the location closest to them; therefore saving you shipping charges and getting the orders to the customer in less time than is generally quoted.

## How Our Order Fulfillment Process Works

Order fulfillment management involves warehousing the inventory you sell to customers and then processing the orders that are placed on your website for shipment directly to your customers. Instead of you personally managing warehouse spaces and employees, our trained staff is dedicated to the task of fulfilling your customer orders as if they were our own.

Ship My Orders specializes in product fulfillment services, logistics and order shipping. When you receive the orders of your products through your eCommerce platform, our software receives that information immediately. We warehouse your inventory in our West Coast location, pulling the customer order from the warehouse closest to their address. Our employees professionally pick and pack the orders to your specifications, and arrange for transport and delivery to the customer.

## The Daily Fulfillment Management Process

<p><b>We receive your orders.</b></p> <ul style="list-style-type: none"> <li>Once, or many times during the day</li> <li>Automatically (web, data feed, email parser)</li> <li>Manually (email, web interface)</li> <li>...or you can call us with any questions, special requests or changes to printed orders</li> </ul>	<p><b>Your order is picked, checked, &amp; packed.</b></p> <ul style="list-style-type: none"> <li>A picker picks your products</li> <li>A supervisor checks your orders to make sure they are correct</li> <li>We use the most appropriate box/packaging for your product</li> <li>We label and generate all the forms, tracking numbers, packing slips and documentation</li> </ul>	<p><b>Your order ships.</b></p> <ul style="list-style-type: none"> <li>We ship same day all Express orders received by 1 pm PST</li> <li>We ship same day most standard orders received by 3 pm PST</li> <li>We ship anywhere in the world</li> </ul>
<p><b>We send tracking numbers.</b></p> <ul style="list-style-type: none"> <li>We send you a tracking numbers batch</li> <li>We send your customer a customized email with the tracking number/shipment notification</li> <li>If you require a data feed for your backend, shopping cart, Amazon, etc. we can customize a seamless solution, so you don't have to worry about anything after your orders have been approved.</li> </ul>	<p><b>24/7 access to our web interface.</b></p> <ul style="list-style-type: none"> <li>Check your orders, tracking numbers, inventory</li> <li>Edit/add orders</li> <li>Get answers to frequently asked questions.</li> </ul>	<p><b>Or contact your account manager.</b></p> <ul style="list-style-type: none"> <li>Ship My Orders will assign a dedicated account manager to your company. Someone knowledgeable who understands your business, your merchandise, your needs, and your customers' needs... always willing to help you with a smile.</li> <li>Get direct access to your dedicated account manager 8:30 AM – 5:00 PM PST.</li> </ul>

## Benefits of Using a Third-Party Fulfillment Center

By using our fulfillment center, you can not only provide top-notch service to your customers, but you can also save money on shipping and not assume the risks of securing employees and warehouse spaces on your own.

- Save in overhead costs by outsourcing all your warehouse-related operations.
- Discounted shipping costs
- Avoid upfront expenses or risk, with Ship My Orders you are in a month-to-month contract, without any long-term commitments.

We deal with high volume or low volume shippers, startups, seasonal companies, shipping to final consumers (B2C fulfillment) small packages or retailers (B2B fulfillment) pallets and freight shipment.

We are in the business of making sure that your shipments are processed in the fastest and most efficient way and shipped in a timely manner. If you are new to online order fulfillment or curious about our procedures, please read about our daily management process below.

## Why Work With Us?

**Transparency:** Our philosophy is to have transparency in billing and reporting. There are no hidden fees, and we give a full breakdown of all charges.

**Timely Fulfillment:** If we receive your order by 12:00 PST, we promise to ship it that day.

**Communication, In-House Tech Support, & Quick Response:** We have a Customer Service team that helps with any concerns you may have. Anytime an issue arises, we communicate with you so you are aware of what's being done.

**Custom Features & Flexibility:** We want to see your business succeed. We offer custom features to help achieve that success. Some features include kitting projects and customized programming of our software interface.

**Customized Reporting:** Often times you may need a specific type report to help you keep track of inventory, shipping, and/or sales. We can create reports based on your needs.

**Multiple Channels:** We can connect to multiple shopping carts (Shopify, Magento, etc.) and/or platforms (Amazon, eBay, etc.).

# E-Commerce Fulfillment Center

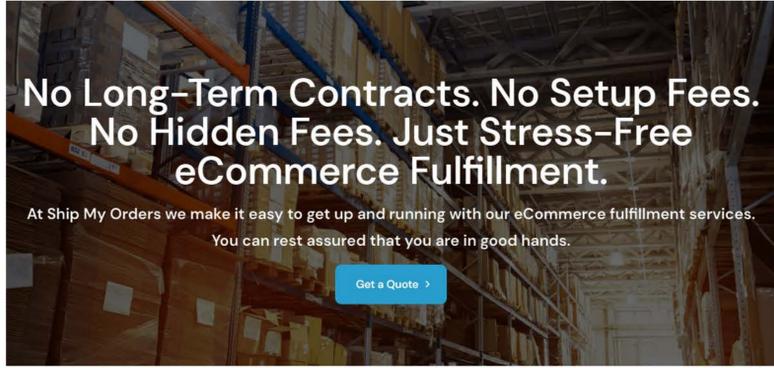

Fill the logistics gap between the website that sells your products and the orders that arrive at your customers' doors.

## Enhance Your Online Business with our ECommerce Fulfillment Service

Our eCommerce fulfillment services fill the logistics gap between the website that sells your products and the orders that arrive at your customers' doors. This is done through our shopping cart integration software, which provides seamless online order fulfillment with the leading eCommerce shopping cart platforms. Don't waste valuable time processing and shipping orders. Let us handle the shopping cart fulfillment processes so you can concentrate on growing your business.

We make online selling easy and efficient for you!

Don't waste valuable time processing and shipping orders. Let us handle the shopping cart fulfillment processes so you can concentrate on growing your business.

## Shopping Cart Integration for eCommerce Product Fulfillment

We provide integration fulfillment services for virtually any shopping cart in the market. By seamlessly integrating your online shopping cart with our API and product fulfillment facilities, your operations will become more streamlined and the time it takes for your customers to receive their goods will be reduced. So instead of spending time sorting through the logistics of each order, your website will automatically send us all the information we need to get working on each order as it comes in. This can save you time and money, and also lets you focus on growing and improving your business.

We provide integration through web services (API) for most eCommerce platforms & shopping carts such as:

- Amazon Fulfillment Services
- WooCommerce Fulfillment Services
- Ebay Fulfillment Services
- Shopify Fulfillment Services
- Magento Fulfillment Services
- iShopping Fulfillment Services
- 3DCart Fulfillment Services
- Volusion Fulfillment Services
- BigCommerce Fulfillment Services
- Squarespace Fulfillment Services
- FTP – Connection directly to your FTP server

One of the main reasons we got into the eCommerce fulfillment business was because integrations with online shopping cart platforms weren't good enough. Our development team can integrate our proprietary software with almost any eCommerce platform. Our system will allow you to have 24/7 real-time, secure access to our order fulfillment operations and all the fundamental areas of your account.

## How It Works: Our eCommerce Order Fulfillment Process

We are a full-service distribution center specializing in warehousing, order processing, order fulfillment, and distribution of products anywhere in the world. By outsourcing these logistical processes, you can become a fully virtual online merchant, selling your merchandise without having to manage an in-house staff or physical warehouse space.

We do this by creating a software bridge that connects to the shopping cart on your website. Orders that are placed by customers are then routed to our fulfillment center, where we hold your inventory. Our staff then fulfills the order by pulling the necessary items from the inventory, packing the order under your provided specifications, and arranging for the order to be transported to your customer's door.

As an eCommerce fulfillment provider, we can:

- Receive your products
- Securely store your merchandise
- Professionally pack and ship your orders
- Notify your customers of shipment and tracking information
- Update and report to you
- Effectively receive and process your returns

## Why Choose Us as Your eCommerce Fulfillment Center Partner?

When you choose Ship My Orders as your eCommerce fulfillment provider, you'll be able to take advantage of our nationwide coverage and the full suite of services we provide to our clients. We promise to ship any orders we receive by 12:00 PST on the same day and can ship, fulfill, and kit your merchandise as needed. We can connect your storefront to multiple channels, giving your customers a wide variety of options to purchase from, along platform integration and in-house tech support. We offer friendly service by humans, a dedicated Customer Support team, flexible month-to-month contracts, transparent billing with no hidden fees or charges, and transparent reporting.

### Benefits of 3rd Party Logistics

- Focus on growing your business rather than the distribution process
- Position merchandise closer to your customers for faster and cheaper shipping costs
- No need to manage warehouse employees or physical spaces
- No long-term contracts or leases
- Discounted shipping rates
- Become a truly virtual online merchant

When you work with us, we will assign your business a dedicated account manager – an expert who is knowledgeable about your business, merchandise, and customer needs.

## Be at Ease with Transparent Fulfillment Reporting

Ship My Orders reports to you and fills all your online fulfillment reporting needs. Please contact us for a quote about your product fulfillment and shipping needs.

### Free 24/7 Access:

- To your orders/inventory in our proprietary database (with secure web interface)

### Free Email Notifications:

- End of day tracking numbers batch
- End of week inventory report
- Low inventory thresholds
- Inventory PO received
- Backorders

### Custom Reports on Demand:

- Order History reports by SKU
- Order History reports by date
- Order History reports by Shipping Method
- Order History reports by Geographic Region
- Customer Repeat Business
- ... and any other you may need

LET US TAKE CARE OF YOUR PRODUCT LOGISTICS

# Inventory Management Systems

SHIP MY ORDERS PROVIDES

## Easy 24/7 Online Inventory Management for Your eCommerce Business.

Suddenly, you find your stockroom overflowing with an unorganized mess. There comes a time in every successful business owner's life when they realize they need help with their inventory. This is actually a great opportunity, as it signals that your business is growing and thriving. However, stocking a more extensive inventory does require a bit of extra work. For this reason, many business owners make the decision to use a commercial warehouse space.

Commercial warehouse companies offer many more services than just storage space. For example, you can also have specialized inventory and shipping services, along with clean and safe storage for your products. And that isn't the only positive effect of utilizing a professional warehouse solution. We have found that professional inventory services increase customer satisfaction and your overall profit margin.

### Our Inventory Management Systems allow you to:

**View and manage all your orders and inventory 24/7 in real-time.**

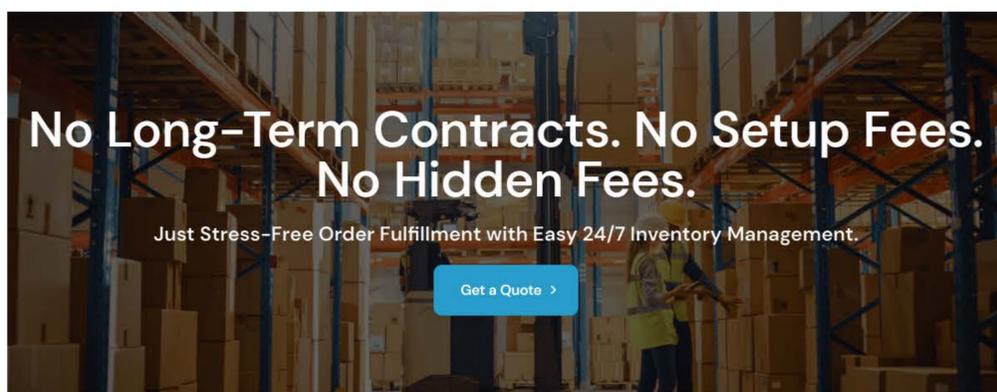

As soon as a new order enters the system your product inventory will be updated automatically by our inventory management systems to reflect the new count.

**Set inventory minimum reorder threshold points.**

Get notified by our inventory management systems to prevent backorders.

**Pre-arrange a schedule for your physical inventory needs.**

Added to the online inventory control system will provide total accuracy.

## Inventory Management Services for Your Businesses

### Inventory Fulfillment Services for Your Business

You might wonder how having an inventory service can lead to customer happiness. There is an important relationship between inventory and fulfillment. At Ship My Orders, we utilize an accurate inventory count, updated in real-time. This means there will be less chance of having to backorder products. Your customers won't have to wait to receive their orders. When customers can rely on your business, they are more likely to suggest your products and services to others.

### What is an Inventory Management System?

Inventory Management Systems keep an accurate and up-to-date count of your products and goods. This information is updated for every outgoing order and incoming shipment. You are also able to check on your inventory count in real-time. This way you will be able to fulfill customer orders and keep up with demand. A professional inventory management system will save you quite a bit of trouble and help you to increase sales.

### Our Warehouse Inventory Management Process

Once we have met with you to discuss your unique business needs we will set up your account. We will be able to receive, organize, count, and store all of your products in our clean and safe warehouse. Our inventory system will be updated immediately and you will then be able to access your account information 24 hours a day, 7 days a week. You are also able to request a physical inventory count at any time. This service offers you peace of mind that your products are safe and fully accounted for.

Finding a professional shipping and fulfillment logistics company can be a daunting task. But it doesn't have to be. We work with all types of industries, from small home based businesses to established companies, and even internet startups. Please give us a call today so that we can discuss our many inventory and warehousing options with you.

# Reverse Logistics & Returns

SHIP MY ORDERS

## The 3PL Reverse Logistics Company You Can Trust

When you partner with us for fulfillment services, we also have a specialized team to handle your returns process. We understand that returns are just as important as the initial shipment and are processed with high-quality reverse logistics management.

At Ship My Orders, we consider ourselves an extension of your business. We care for your customers as if they are our own so you never have to worry.

## Solving Reverse Logistics Problems in eCommerce Fulfillment

While many business owners are focused on delivering their products to their customers as fast and cost-effectively as possible, it's just as important to process returns in a timely and cost-effective manner. It's easy to overlook your company's reverse logistics management capabilities, but your ability to process returns can be just as crucial to customer satisfaction and profitability as your ability to quickly reach their front door.

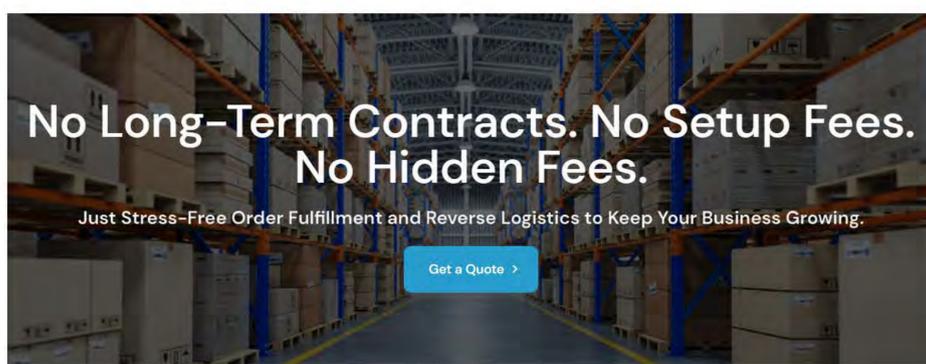

With a simple and efficient return service, you can offer your customers a better experience while also capturing more value with less effort from their returns. Instead of building your own reverse logistics capabilities from the ground-up, you can turn to a third-party logistics provider like Ship My Orders to provide you with the infrastructure you need to compete in a changing environment.

## Benefits of Reverse Logistics and Returns Management

With robust returns management capabilities, you can:

- Offer excellent customer service by reducing product return times (which can be especially important if your business attracts repeat buyers)
- Have a consistent and predictable system by which to process returns
- Reduce costs

By partnering with your 3PL to obtain these capabilities, you can also benefit from transparency across your supply chain, which can lead to greater optimization and scaling opportunities. With a proven 3PL partner, you can also take more risks with your business, as you'll be able to easily accept returns for new products that may not succeed with customers.

## Our Reverse Logistics Process

We enter a set of rules and guidelines in our system so our returns department can process your returns as you request.

- We process your product returns by carefully opening and inspecting the items
- We report the product condition
- We either restock, destroy or return to you (or your manufacturer) the returned items.

## The 3PL Reverse Logistics Company You Can Trust

Ship My Orders can handle all of the reverse logistics needs for our order fulfillment clients. We simplify the return process for you and your customers while helping you to better capture value from it. We can seamlessly integrate our reverse logistics services and return management process with the forward logistics services we offer, keeping all of your 3PL needs under one roof. We carefully open and inspect each return by hand to determine whether an order can be restocked or needs to be returned to the manufacturer or destroyed. By trusting us with your reverse logistics needs, you can maintain or improve customer satisfaction during the return process, further optimize your logistics chain, improve your bottom line, and better position your company for future growth.

# Storage Warehousing Services

SHIP MY ORDERS

## Warehouse and Distribution Services to Help Your Business Grow

Now that your company has been growing and your profits rising, you're beginning to realize you might have outgrown your original office or workspace. Perhaps your rented workspace is becoming too crowded. With all these boxes and product taking up space, it is no longer an ideal work area. Not to mention, a crowded office is no place to meet with clients. Luckily, you have options. The solution for both of these scenarios is to seek out a professional warehouse storage service.

With Ship My Orders storage [warehousing services](#) you can store all your merchandise, whether it's just a few pallets or hundreds of them. We provide a safe, dry and clean storage warehousing space with bulk areas, rack/shelve areas and fast-moving picking areas. Exceptions to goods we won't store are illegal, perishable, chemicals, temperature sensitive or other materials that could pose a safety or health issue. We work with all industries. SMO will usually be ready to ship your orders 24-48 hours after receiving. If your shipments have been sent following our standard procedures and include proper documentation.

## Storage Warehousing Process

### Inventory delivery notification:

- Please contact us every time we are going to receive merchandise
- If available please provide a packing list with SKUs and amounts
- If we are receiving new SKUs please provide a description for your customer's packing list.

### Receiving:

- We receive, count and categorize your merchandise
- We prepare a designated picking and storage area
- We enter the SKUs and inventory amounts in our system
- You receive an email with a PO
- You have 24/7 access to our web interface to check your inventory (as well as orders...)

### Bundles:

- When a product can be sold individually or in bundles (prepackaged boxes with multiple units) we can enter it in our system with the corresponding bundle amounts, in this way you will save substantially in fulfillment costs, and you won't need to create a new SKU or manipulate your original orders.
- ie: An item that comes in a master carton of 10 will have a bundle number of 10
- When we receive an order with 12 items, the "picked billable items" will be 3 (1 bundle + 2 individual items) instead of 12

### Billing:

- Every month on the 1st we do a pallet count for billing purposes
- A pallet measures 42" x 48" x 42" (49 cu ft.)
- For shelf/rack storage we do a pallet equivalency
- If there haven't been any substantial changes (5 pallets or more) during the month we won't charge for additional pallets received during the month

### Inventory:

- We'll do physical inventory counts depending on each customer needs
- You can request a physical inventory of your storage at any time

UNRIVALED

## Warehouse Storage for Your Inventory

When choosing a company to provide warehouse storage, it's important to research the services offered. Some warehouse facilities offer inventory counting and pallet verification. It's also important to consider the reputations of the various storage options. When you choose a warehouse facility it is important to have confidence that your products will be cared for appropriately. Take a tour of the facility and, if you are able, speak with the people who are on site daily. Communication is an important part of building the an element of trust with those who are tasked with your inventory management and keeping your products safe. Only choose a warehouse storage facility that you are completely satisfied with and who exudes integrity.

## Considering Our Storage Warehouse Services?

We hope that you will consider Ship My Orders as a solution for your warehouse and shipping needs. At Ship My Orders, we strive to be the best at what we do. We provide services to our clients that ensure both the safety of their products and goods, and that also help businesses to grow. We have storage areas of all sizes that provide clean, dry, and safe storage for all your products and goods. We work with a large variety of industries and are always striving to cater to our clients' storage and shipping needs. In fact, in most cases, we are able to ship your items within 24-48 hours of notice.

Our distribution center is conveniently located in the United States. Please give one of our client consultants a call, so that we can discuss your company's unique storing and shipping needs. We provide customized solutions.

Please contact us for a storage warehousing services quote and see how we can provide your business peace of mind when it comes to order fulfillment.

# Kitting Services

SHIP MY ORDERS OFFERS

## Seamless Product Kitting, Assembly, and Fulfillment for a Quality Customer Experience

Outsourcing your kitting lets you spend more time on the core components of your business, which allows you better take advantage of growth opportunities and improve your products and services. You can also attend to more important issues as they arise without worrying if you'll have time to fulfill the latest batch of orders. By choosing a third-party logistics (3PL) provider like Ship My Orders, you can also deliver a more consistent and higher quality experience for your clients, as custom-made packaging can be less expensive than simpler ready-made alternatives if you buy in bulk. Your savings on each unit can also translate into greater profits for your business.

By partnering with us, you'll also be able to plug into our pre-existing network of warehouses, fulfillment centers, and trained professionals who know the best ways to efficiently package your products. We can quickly assemble your kits correctly and have the flexibility to meet spikes in demand for your products without sacrificing quality. As your 3PL provider, we also deliver each package to your customers and handle any service issues that may arise.

## Get On-Demand Kit Assembly

Ship My Orders can handle all of your kitting service needs if you use our order fulfillment services, providing you with the resources and expertise you need to successfully reach new and existing clients. Our fulfillment center can reach most locations in the continental United States within three days of an order being placed. Our highly trained staff delivers quality, consistent service and can quickly adapt to changing demand based on your needs. With our help, you won't just have a 3PL provider, but a partner that can help to optimize and grow your business.

### On-demand kit assembly services:

- Kitting of Educational Materials
- Assembly of point-of-purchase kits
- Light Assemble
- Re-labeling Projects
- Promotional Kitting
- Custom packing
- Direct marketing campaign

**Pre-Assembly of Stock Items:** We can create custom kits from your inventory, assembling a number of SKUs into a kit to be sold as one item.

Please contact us for a kitting services quote.

# Third Party Logistics Services

SHIP MY ORDERS

## 3PL Logistics, & Fulfillment Center

As your online business generates more and more sales, it may become too much for you to handle on your own. At some point, you might consider working with a Third Party Logistics (3PL) company to outsource your order fulfillment and shipping processes. Before you make that important move, you should know how partnering with a 3PL could affect your business.

### Advantages of 3PL Services in Your Business

Keeping up with shipments can be quite challenging as your business expands. A 3PL can be just the answer you're looking for.

Advantages of working with a 3PL include:

- Long-term warehousing for your inventory
- Reduced shipping costs with a wide variety of carriers
- Inventory management software
- Fast order fulfillment and delivery
- Customer service handling
- Increased visibility among new markets
- Supply chain management

SHIP MY ORDERS

### The Role of Your 3PL Fulfillment Center

Your 3PL provider will handle the order fulfillment and delivery processes so that you can focus on your business operations. This often involves the 3PL storing your inventory in a warehouse until the products are purchased. Then, the 3PL will work with the shipping carrier to get the item to the buyer as quickly as possible. A full-service provider will even be able to manage the returns and refunds process on behalf of your business.

Ship My Orders offers scaled and customized services that are designed to make order fulfillment easier and faster for online businesses.

### How Our 3PL Process Works

When you outsource your logistics to Ship My Orders, it will feel like you have an actual partner in your business. We handle warehousing, order processing, and fulfillment as well as the delivery of your inventory. Not only will we save you time, but we'll also save you the expense of leasing your own warehouse space or having to hire another employee to keep up with demand.

Our logistics company is able to cut down on order processing times thanks to innovative software, which links to the shopping cart on your site. This allows orders to be sent to our fulfillment center directly so that we can ship items more quickly. Our trained staff will locate the purchased products in your inventory and then package them carefully before coordinating shipment with an established mail carrier.
